SHOU SUGI BAN HOUSE

Philosophy

Our bodies and minds are enigmatically linked to the earth, the ocean and to each other. When we can reconnect to our bodies and the nature around us, we realign ourselves and restore balance. We yearn to heal and be whole, for a return to the simplicity of self.

Rooted in the connection to the natural world around us, our spa and healing treatments draw from the inherent wisdom and curative properties of the ocean, local pine forests, wild flora and indigenous herbs. Following the natural rhythm of the elements, surrounding waters and their unique and complex alchemy, each therapy is crafted to create a space for guests' individual desires for exploration, transformation and harmony through body and mind.

Hydrotherapy Facilities

Hydrotherapy has been used across cultures and throughout time to purify and fortify both body and spirit.

INFRARED SAUNA

Far-infrared heat penetrates the skin at a low and slow pace, raising core body temperature to improve blood flow, muscle recovery and overall immunity. In a calming environment, temperatures ranging between 120° and 130°F support your lymph system and nervous system to heal and eliminate cellular waste.

DRY SAUNA

Traditional dry, therapeutic heat set in a wooden cabin that stimulates circulation and cleansing while decompressing the mind and muscles. The high temperature and dry air enable the body to release toxins without overheating the skin. Temperatures range between 140° and 200°F.

AROMATIC STEAM ROOM

Warm, high-humidity aromatized vapor envelops the body, seeping through the epidermal tissue and increasing blood flow for internal healing. Hydrate your tissues, open up your lungs and alleviate inflammation at therapeutic temperatures between 100° and 110°F.

PLUNGE POOLS

Three contrast therapy saltwater pools composed of structured water re-create the natural effects of the ocean and thermal springs. Long revered for its therapeutic and detoxification benefits, contrast water therapy, or alternating between hot, warm and cold water, can boost circulation and help dilate the vascular system.

FLOTATION BATH

Bathing as hydrotherapy is believed to be effective in alleviating fluid retention, minimizing digestive and sleep issues, and improving overall health.

The zero-gravity flotation tub creates a meditative moment of relaxation with a stimulating water massage, air jets and a warm neck bath to assist in decreasing stress, reducing blood pressure and easing muscular tension.

EXPERIENCE SHOWER

Water, light, color and sound are the elements of this full-sensory shower experience. Featuring an overhead cascading waterfall and rainfall showerhead, this unique experience has temperature contrasts to help increase circulation and visual LED chromotherapy to purge tension and stress.

ICE FOUNTAIN

Ice flakes applied directly onto the body as a compress stimulate the skin and awaken the circulatory system. The contrast in temperatures between body and ice reinforces the cardiovascular and immune systems while providing pain relief, muscle healing and reducing inflammation.

Massage & Body Work

Intentional, functional massage therapies crafted to restore balance and inner strength.

EDGE OF THE WOODS

60 | 90 mins · \$200 | \$300

Therapeutic Swedish massage nourishes life force by blending golden organic jojoba, rosehip, yuzu and cedar Atlas oils. Herbal compresses steeped in warm elderflower, mugwort and willow tea relax muscle tissues and calm the mind. Recommended for insomnia, anxiety, stress and emotional fatigue.

Alternative Modalities

Focused individual modalities and advanced massage techniques.

CRANIOSACRAL THERAPY

30 | 60 mins · \$125 | \$225

Using light pressure on various parts of the body, craniosacral therapy releases tension and rigidity in the muscles, membranes and fascia, helping ease stored injuries and emotions by awakening the body's ability to self-heal.

REFLEXOLOGY

30 | 60 mins · \$100 | \$200

Gentle kneading of pressure points located in the feet, hands and lower legs stimulates a healing response in corresponding organs and activates the flow of energy. Pressure-point massage also aids in nervous-system decompression.

THAI MASSAGE

60 | 90 mins · \$225 | \$325

An ancient form of healing that blends acupressure, meridian therapy and assisted yoga stretches in a slow, rhythmic motion to release muscular tension, improve flexibility and create a deep sense of calm. Massage pressure is fully customized, loose-fitting clothing is provided and the session is performed without oil.

Add-Ons

Supplemental therapies and tools to complement any massage or body treatment.

CBD TOPICAL

\$30

Enhance any massage with a whole-plant CBD oil infusion, extracted without the use of alcohol, CO2 or other toxic solvents. Whole-plant integrity results in the highest delivery of vitamins and minerals and maximizes the anti-inflammatory and pain-relieving benefits of the hemp plant.

CUPPING THERAPY

\$30

Silicone cups gently glide along muscle tissue to help increase range of motion, improve blood flow and reduce pain and tension. An effective therapy for enhancing the benefits of soft or deep-tissue massage. Mild to severe tissue redness or light bruising may occur.

DRY BRUSHING

\$30

Incorporate an invigorating whole-body jute-brush exfoliation into your treatment, for increased blood circulation, lymphatic drainage and cellular renewal. The sustainably made dry brush is yours to take home.
